Models & Pricing

Construction is either Bolt-On (BO), or Set-Neck (SN), with your choice of 4, 5, 6, or 7 strings.

All basses feature:

- 35" scale lengths
- 24 frets
- Graphite reinforced necks with dual-action truss rods
- Hipshot hardware
- A long list of wood choices

Wood Choice

Body woods come in two categories. The body Core wood will set the tone of the overall sound; the Top wood will enhance the Core wood, and add visual appeal. Both pieces are equally important, and the overall tone of the bass will be determined here. An optional accent veneer line can also be layered between the core and top for added visual beauty.

Core Wood Options:

- Swamp Ash, Walnut, Mahogany, or Poplar

Top Wood Options:

- **Basic Grade**- Flamed Maple, Bubinga, or Claro Walnut.
- **Exhibition Grade**- Quilted Maple, Rosewood, Cocobolo, Koa, Figured Walnut, Figured Myrtle, Ziracote, Bocote, Buckeye Burl, Spruce, Redwood, or Spalted Maple.

(Other choices Subject to availability)

Neck:

The Sage neck is a three-piece construction of quarter-sawn, and rift-sawn material, giving our basses a neck that opposes stress from all directions. To further resist neck stress all basses come standard with graphite stiffening rods, and a dual action truss-rod.

- **Standard Neck Wood**- Rock Maple, or Ash.
- **Premium Neck Wood**- Flamed Maple, Birdseye Maple, or Wenge.

Fingerboard:

All fingerboards come Quartersawn standard. Each wood gives a different feel, both visually, and sonically.

- **Standard Fingerboards**- Cocobolo, Bolivian Rosewood, or Wenge.
- **Premium Fingerboards**- Gaboon Ebony, Macassar Ebony, Ziracote, Brazilian Rosewood, or Birdseye Maple.

Inlay:

Fingerboard Face

- **Standard**- Abalone dots, or Blank face with no markings.
- **Premium**- Signature silver/wood, or brass/wood dots, custom made in-house.

Fingerboard Side

- Customer choice of Abalone, Silver, or Brass

(Other custom inlay work available upon request)

Finishes

Our production background is in finishing. We offer endless options, and pride ourselves on the quality, and clarity of our finishes.

- ***Standard Finishes***- Clear Nitrocellulose lacquer, Catalyzing Oil.
- ***Premium Finishes***- Transparent stains, transparent lacquer colors, sunbursts, and custom graphics.

Electronics

Working with the best in the business we custom craft a variety of tonal options with our pickup and preamp selections. For the player that wants a simplified electronics package, we have Passive options.

Pickups:

- ***Standard pickups/preamps***
 - Bartolini- BC series soapbars, X series single coils, or a combination of both. 2 or 3 band preamps.
 - EMG- Extended Series pickups. 2 or 3 band preamps.
 - Aguilar- 2 or 3 band preamps.
- ***Premium Pickups***
 - Aero- Single coil, or Humbucking soapbars, hidden or exposed polepieces, optional contrasting or matching wooden covers. These are our #1 selection for passive pickups, but work equally as well with a preamp. Each set is made to order and we appreciate the exacting work Larry and his crew delivers.

Electronic Controls:

- ***2 Band Controls***- Volume, Blend, Stacked Treble/Bass.
- ***3 Band Controls***- Volume, Blend, Midrange, Stacked Treble/Bass

(Other control options available upon request)

Hardware

All of our bridges and tuners are made by Hipshot. We use ultra light tuners, and A-style bridges. Black Hardware comes standard. Chrome or gold hardware is optional.

- We use Electrosocket jack housings with Switchcraft jacks.
- All basses come with Dunlop Straplok systems.
- Nuts are made of Graphite, or Bone.
- Metal knobs come standard, wooden knobs optional.
- Backplates come standard in satin black plastic.
Wooden backplates optional.
